Mission: *Needy Paws Rescue is a 501(c)3 volunteer 100% foster-based nonprofit organization saving dogs from high-kill shelters, strays, abandoned and surrendered throughout St. Louis and most rural Missouri areas, regardless of breed or size.*

Meet Evie: Photo on the left is her first days of rescue, when she was too scared to go outside. Next is Evie a few weeks later, feeling more comfortable. Last is her now, confident and happy-go-lucky!

Foster Focus

We rescue many dogs that have been under socialized. They steal our hearts when they finally come out of their shells and learn to love being a pet. Evie is one of those dogs. She came to Needy Paws Rescue with four other dogs from the property of a hoarder who had passed away. All five dogs were black, all different ages and breeds, and all terrified of the transition. None of these dogs had ever seen a leash or knew anything outside of the house where they were kept. Alligator, Abe, Marge, Mitch, and Evie all needed to be housebroken, taught to walk on a leash, and nurtured to trust humans. It took some time, but they all found their way and came out of their shells to find great homes...except Evie.

Evie has seizures. We do not know if she had them prior to rescue, but this seems to scare some adopters away. She used to be so sad and withdrawn, and now she loves life! She frolics in the yard, plays with her foster family, and cuddles on the couch. She trusts people now and greets everyone with a joyful smile. She went from terrified to terrific! Sweet Evie is still looking for a home with a companion dog and a human who is understanding of her subtle, focal seizures. Her foster has kept a diary to help find patterns and triggers that may cause them, and Evie's meds are keeping her seizures controlled and reduced to about two a month. If you know anyone looking for the sweetest dog, send them to needypaws.org.
